Not all insulations are created equal!

SEALECTION™ 500

Spray Foam Insulation

**Seals and Insulates
in One Application**

The SEALECTION™ 500 Insulation System for Home Owners and Builders Provides Superior Performance.

- Energy efficient homes - heating and cooling costs can be reduced by as much as 50%.
- A reduction of heating and air conditioning tonnage by as much as 40% without the loss of efficiency or comfort.
- Draft free environment - sealing of cracks, joints, etc..., will prevent uncontrolled movement of air through the wall assemblies.
- Quiet homes - the open cells and the semi-rigid polyurethane mass will absorb and reduce the transmission of sound.
- Dust free - Homes insulated with SEALECTION™ 500 show a remarkable reduction of dust accumulation.
- Improved indoor air quality.
- Stable insulation, not subject to structural deterioration or decomposition.
- Comfort throughout the home.
- Environmentally safe.

"The first alternative in alternative energy... is simply using less"

Spring has sprung ...

Symbolizing rebirth and new beginnings, daffodils are a sure sign that spring is here and warm weather is on the way. But did you know ...

- There are between 40 and 200 different Daffodil species, subspecies or varieties of species, available in a wide range of sizes, colors and bloom times.
- Daffodils first appear in recorded history around 300 B.C. They were grown by the ancient Greeks, Romans and Chinese for medicinal purposes.
- Daffodils represent good fortune when presented in a bunch — if presented as a single bloom, it is said to foretell misfortune.
- Daffodil bulbs contain lykorine, a poison that protects the plant from animal predators, which makes it great for areas where deer and rodents are an issue.

Our plans are custom tailored to your specifications, unique lifestyle and environmental setting.

Deep Rooted

Clovelly Nurseries has always been able to pluck up a customer's chosen tree and transport it, no matter the size. At left, Stormy Neff and his father began the business in 1984 on the family farm in northern Queen Anne's County. (Vintage photos courtesy of Chester River Landscaping)

Neffs able to branch out from Clovelly Nurseries

Story, photos by Kevin George

CHESTERTOWN — Twenty-six years ago, Stormy Neff and his father, Tony, began Clovelly Nurseries on rich farmland on the banks of the Chester River.

“The family’s been in business there since 1958,” said Stormy Neff of the property along Rolph’s Wharf Road in northern Queen Anne’s County, “when (my grandparents) bought the farm after moving here from Pennsylvania.”

The property was a livestock farm with row crops until it was converted primarily into a nursery. Neff said he was ready to convert the land after studying horticulture classes at the University of Delaware.

Today, the business — with *(PAGE 37)*

Clovelly Nurseries has been located at 301 Clovelly Lane, just off Rolph’s Wharf Road in northern Queen Anne’s County, since 1984.

Creative kitchen redesign

Since most of the time people spend in their homes is in the kitchen, it deserves to look great.

A kitchen transformation can be one of the most rewarding redesign or updating projects you can give your home, and it does not have to cost a lot of money.

The most important job for a redesigner is the ability to be creative in order to stay within the budget.

Redesign of the Times

By Marianne DeTar
needs to go. To do this, keep in mind that "form follows

pliances in good and working order? What is the condition of the floors, cabinets and countertops? Is there sufficient lighting?

Once it is determined what areas need improvement and what there is to work with, you can begin to plan your kitchen transformation.

A creative kitchen makeover means working with and improving what you have with the goal of making your kitchen
